

There are so many people who miss out on the opportunity to be a tester for Apple's new products when they come out, such as the Apple iPhone 4 that is being given away for FREE to testers everywhere this very moment! You might think that it's impossible to become a tester and that someone like you would never receive a free Apple iPhone 4 just for trying it out and telling them what you think about, right?

Well, you couldn't be any more wrong! All you have to do is find the promotional websites online that offer free Apple iPhone 4 phones in exchange for your review. Normally you just have to fill out a survey or checklist about the phone instead of having to write some lengthy review. It doesn't get much easier than that, huh?

What you must understand is that there are companies out there that get paid millions of dollars to perform market research and their job is to find out "what people want." They must then go out there and bribe people like you and me with fancy gifts and toys (like a free iPhone 4) in order for us to give them our true opinion and fill out these surveys, etc. It's really a win win situation for everyone since the company gets the information they need about the product and you get yourself a brand new Apple iPhone 4 for FREE! Sound good?

Don't be fooled by people who tell you that everything on the internet is a scam and that you can't get your hands on a free iPhone 4 because you most definitely can! Find the website, look up to see if there are any still available in your area by entering your zip code and then get your free iPhone 4! Good luck!
