SAFETY SERVICES

Werner Electric Supply has the products and expertise to support your safety initiative! Our safety product specialists can help identify and possibly engineer the hazard out of existence to keep your risk level to a minimum.

- Engineering Services
- Machine Safety
- Lighting
- Overcurrent Protection
- Security Systems
- Safety Training

Safety Audits

Our team of Safety Experts can perform a safety audit at your facility to identify areas of concern. From safety gloves to overcurrent protection, our experts can supply you with all of the information and products you need to make your work environment safer. It's part of our plan to help your bottom line. We can help you prevent expenses incurred due to a workplace incident.

- Hand Protection and Glove Analysis
- Fall Protection
- Lockout/Tagout
- Hearing Conservation Training
- Signs & Identification Systems
- Hand & Arm Assessment Analysis
- Respiratory Protection
- Confined Space Analysis
- Arc Flash Hazards
- Job Safety Analysis.
- Technical Assistance for All PPE products
- Hazardous/Flammable Liquid Handling and Storage

Vendor Managed Inventory Services

Werner Managed Inventory

Werner Electric Supply has pioneered **Vendor Managed Inventory** (VMI) Programs. Hundreds of our customers have benefited from our VMI Programs since the mid-1980's.

WE TAKE CARE OF IT ALL.

- We **ORGANIZE** your inventory
- We **ORDER** your inventory
- We **DELIVER** and **PUT AWAY** your inventory
- We **MONITOR** your inventory
- We generate usage **REPORTS**

Werner Electric does not believe in the practice of **OVERSTOCKING**, as may occur in some VMI programs. We take pride in our relationship with our customers and vow to never overstock our VMI customers' inventory!

Werner Assisted Inventory

Werner Electric Supply understands that some of our customers need to maintain control of what gets replenished and ordered. In our efforts to make the ordering process as streamlined and error-free as possible. We have added a new program entitled **Werner Assisted Inventory** to our Inventory Management services.

Participants in the Werner Assisted Inventory program will be provided with a key-fob style RF reader to help monitor inventory levels.

YOU MAINTAIN CONTROL. WE ASSIST.

- You maintain control of which and how often products are ordered.
- Werner Electric still assists with organizing & labeling your products.
- All orders are placed easily and electronically.
- Reduce the amount of time your staff takes in the ordering process.
- Place orders as often as you need.
- Orders delivered next day in most cases.
- Usage reports available at the touch of a button.

Benefits

- Increase Productivity
- Reduce P.O. Cost
- Reduce Manual Labor
- Improve Inventory Accuracy
- Reduce Downtime
- Reduce Inventory

Arc Flash Safety Seminars

Learn how current OSHA standards apply to your facility, including NFPA 70E. Understand OSHA penalties for noncompliance. Learn about personal protective equipment and grouping.

- Avoid electrical hazards at your company.
- Reduce down-time because the correct employees are trained.
- Meet or exceed OSHA standards for compliance.
- Maintain cost-effective operations.

HEAT STRESS

DESCRIPTION	MANUFACTURER	PART NUMBER
Miracool® Cooling Neck Wrap - Blue	OCCUNOMIX	930-BL
MiraCool® Nect Bandana - Navy	OCCUNOMIX	940-018

SAFETY

ENGINEER THE HAZARDS OUT OF YOUR WORKPLACE

Safety Training

One of the most important components of any company's safety plan is training. Our courses cover vital topics such as arc flash safety and compliance. Plus, we regularly present timely seminars on a variety of topics throughout the year.

Courses Include:

- NFPA 70E Hazard Risk Analysis/
Arc Flash Calculations
- Arc-Flash Hazards NFPA-70E
& OSHA 1910
- Grounding for
Industrial Applications
- Industrial Control Panels:
Designing for Compliance
- 2011 NEC – Industrial/Plant
Electrical Maintenance
- 2014 NEC — Industrial/Plant
Electrical Maintenance

ENERGY AUDITS

A review of your facility's electrical systems can lead to substantial cost savings. As part of our commitment to provide you with the best service, Werner Electric has a team of experts that can perform audits on nearly all of your electrical systems. These analyses can help you make important decisions regarding the equipment you buy.

From electric motors to lighting systems to variable frequency drives, our specialists will help you determine how you can reduce energy consumption and how much you will save if you do so. Part of this service is a comprehensive report that includes pay-back details that will be of special interest to financial officers within your company.

HAZARDOUS MATERIAL RECYCLING

Werner Electric provides recycling services for hazardous materials such as lamps and computer equipment.

According to the Wisconsin Department of Natural Resources, a variety of lamps and bulbs contain toxic heavy metals, like lead and mercury, which can harm the environment if improperly disposed of. Recycling

intact lamps is the most cost-effective way to manage mercury-containing lamps as a hazardous waste. It also reduces the risk of mercury vapor release, which can contaminate lakes and streams.

Recycling:

- Lamps and Light Bulbs
- Computers and Electronics
- Monitors and Televisions
- Batteries
- Mercury-Containing Devices
- Lighting Ballasts, Capacitors, and Transformers
- Scrap Wire
- Document Destruction & Paper Shredding
- Other Services Available
Call for Details

Contact your sales rep. for details.

JOB TRAILERS

This safe and convenient storage method keeps your job materials under lock and key. It provides security so you'll always know where your products are, precisely when you need them.

Your trailer will be delivered to your job site, complete with your initial order. Your Werner sales representative will check your inventory and bin locate it on the storage shelves. Once your inventory is checked in you will be given a key so you can access your product at any time.

Orders may be placed at any time. Simply call your local Werner Electric Supply representative! Werner Electric's fleet of delivery vehicles is capable of regular and special deliveries to your job site.

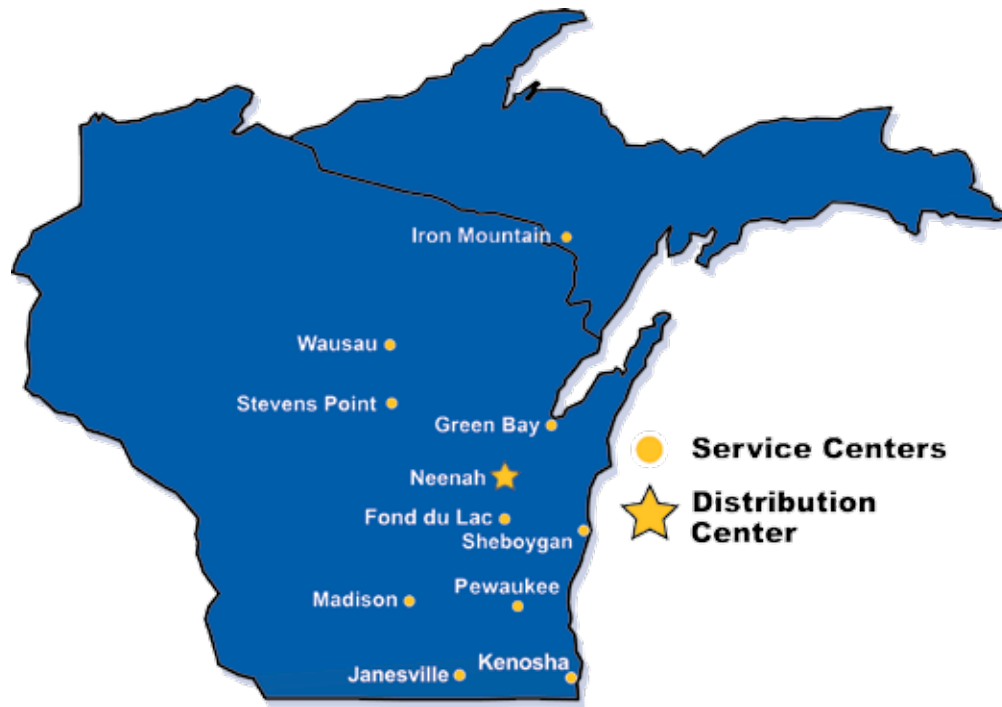

Benefits:

- Central storage of materials
- Protection from elements
- Secure storage of your materials on the job site
- Materials where you need them, when you need them

Features:

- On-site storage trailer w/shelving
- Electrical and communication hookups
- Plan table
