Our farm was invaded on the 23rd of January 2003 by the war veterans of the ZANU-PF being the electoral party of the current president Robert Mugabe. At first there was an understanding that we should share the land in equal with them, which my father peacefully agreed and shared the land to maintain peace and to remain in his tobacco business, but the story changed after the last election of March 29 2008, which the whole supporters of the opposition party of MDC (Movement for democratic change) believed that the ZANU-PF has lost the election and also many country believed the same and the delay in the release of the presidential result.

This caused more problems on the MDC supporters which my family as one of the families that supports the MDC was asked to evacuate our family business and everything that we own to the ZANU-PF war veterans and many other families where affected. This news shocked my father causing him a brain stroke and half of his body is being paralyzed till date. We left to South Africa and upon our arrival my mother made a deposit of the above mentioned amount into one of the Private Security firm.

Coupled with the recent xenophobic attack on foreigners in South Africa, we have come to a conclusion that is not a safe place for us to be, as many foreign investors are pulling out there Investment from this country, and we cannot continue with any form of investment as we planned and also, our status as refugees has limitations to certain financial obligations and operations.

We only need your help to stand as our Overseas Family Business Partner and the fund would be transferred to you on Investment Ground and I would fly my family out of this country to meet with you and start up a new life and a proper medical attention for my father.

I would appreciate if you respond to us via my personal email.

Yours Faithfully

Mr. Alexander Chombo,Jr (Son)
