

# *Minimal Loss While Alching Guide*

*Thank you for purchasing my Minimal Loss While Alching Guide, in detail I will explain to you step by step; how you can enjoy the wonders of low loss and free smithing exp while doing the perilous task of training magic via the 'High Alchemy' spell.*

*This guide does require you to multi task, and if you do not currently possess the skills, will teach you how to multi task so you can efficiently work on the two required skills that allow you to lose little money whilst alching and multi task easy smithing exp, this only requires less clicking then you can believe so even the most impatient of people can effectively use this guide.*

## *The Objective:*

*While you are alching; you will also be smelting iron bars. In order to do this with minimal effort is to select 'Smith All' when smithing iron and then between each smith, cast a High Alchemy spell.*

*The items and their costs that need to be purchased are as follows:*

- 1. Iron Ore – 257*
- 2. Nature Rune – 225*
- 3. Ring of Forging\* – 1397*
- 4. Maple Longbow (u) – 98*

*(Prices as of 27/07/2010)*

*Now for example you want to do 2,000 high alchemys, you would stock up on:*

- 1. 2,000 Iron Ore – 514,000*
- 2. 2,000 Nature Runes – 450,000*
- 3. 15 Rings of Forging – 20,955*
- 4. 2,000 Maple Longbows – 196,000*

*Which comes to a grand total of = 1,180,955*

*\* Each ring of forging allows you to have a 100% success rate at forging 140 iron ore.*

*Now to calculate the income:*

*Maple Longbow (u) = 192 (High Alchemy)*

*Iron Ore = 360 (Smelting)*

$$2,000 \times 192 = 384,000$$

$$2,000 \times 360 = 720,000$$

$$\text{Total} = 1,104,000$$

---

*Now subtract your expenses:*

$$2,000 \times 257 = 514,000$$

$$2,000 \times 225 = 450,000$$

$$2,000 \times 98 = 196,000$$

$$20 \times 1397 = 20,955$$

$$\text{Total} = 1,180,955$$

$$1,104,000 - 1,180,955 = -76,955!$$

*That means you only lose 38477.5 per 1000 alch n' smelt!*

*And the exp total comes to a total of 130,000 magic exp and 25,000 smithing exp.*

*While using this method there are a variety of places where you can alch n' smelt in order to gain both smithing exp, and magic exp as well as minimal loss of your hard earned cash.*

*The best spot to perform this method is the Edgeville Furnace which only requires the achievement diary completely on easy (15 minutes of labour).*

*Other great spots are Shilo Village, Neitiznot and Al'Kaharid, all furnaces that are near a bank are acceptable for this method!*

*The best part about this method is you are getting the exact same amount of magic exp as you normally would + smithing exp with absolutely no extra boring effort required.*

*Note:*

*You can also make a profit when the grand exchange profits begin to shudder, I have made as much as 60,000gp per 1000 while the GF was shuddering!*

*Thank you very much for purchasing my guide, if you have noticed any problem or flaws in this guide please forward them to me on <http://runemart.com> and I can fix and update the guide At8At8.*
