"My Brother Is
Autistic," p. 8

Making Inferences

Making an inference means using clues from a text to figure out something that isn't stated. For example, if you read "Josh was glad he had sunscreen on" and "After five minutes outside, Josh was already sweating," you'd be able to figure out that it was a hot, sunny day.

After reading "My Brother Is Autistic," write an inference you can make from the clues you see in the the chart below. Then write two clues that support the inference at the bottom.

CLUES	INFERENCE
<p>Clue 1: Henry says that George has brought their family closer together.</p> <p>1</p> <p>Clue 2: Henry says that the sight of George's smiling face at the door makes his whole day.</p>	
<p>Clue 1:</p> <p>2</p> <p>Clue 2:</p>	<p>Being George's big brother can be challenging.</p>
