

PROJECT PROPOSAL

Project Name/Title:

Date: _____

Submitted by: _____

Unit: _____

Address: _____

Phone: _____ DG: _____

OVERALL PROBLEM/OBJECTIVE STATEMENT *(Describe the problem, how the work is currently being done, and why improvement is needed):*

PROPOSED TECHNOLOGY & DEVELOPMENT WORK *(Describe your concept of the end product, i.e., a new equipment design, a video production, a handbook, etc.):*

POTENTIAL BENEFITS *(Describe how this project will reduce cost, save time, improve safety, increase efficiency, or provide resource management):*

Center Manager
San Dimas Technology & Development Center
444 East Bonita Avenue
San Dimas, CA 91773-3198
Phone: (909) 599-1267
Fax: (909) 592-2309

Center Manager
Missoula Technology & Development Center
Building 1, Fort Missoula
Missoula, MT 59801
Phone: (406) 329-3900
Fax: (406) 329-3719

Help the T&D Centers Help You:

Submit a Project Proposal

With Forest Service budgets and staff declining, it's even more important that the T&D Centers work on the most important problems facing the agency. Your project proposals are more important now than ever before.

The Missoula and San Dimas T&D Centers work on projects of national significance in all of the Forest Service's program areas. The projects are suggested by field employees, then ranked in priority by national steering committees.

Your proposal should state the problem the Centers are to solve and describe how the work is being done now. Show the advantages and savings (if appro-

priate) of the proposed approach. If you know of work underway, or of similar projects, please describe them.

If you have any questions about your proposal, please call one of the T&D Centers for further information. We can discuss technical approaches to solving your problem.

Mail your proposal to either the Missoula or San Dimas T&D Center. We will forward it to the appropriate national steering committee for review.

Proposals such as yours are the basis for the success of the Forest Service's Technology and Development Program.

Thank you!
