The TLC Difference

TLC operates over 70 locations and is the largest provider of laser vision correction in North America. TLC doctors have performed more than a million procedures. Our affiliation with some of the most experienced doctors in the industry and our commitment to high quality patient care has earned TLC a reputation for excellence.

We're so confident in our results that TLC stands behind your vision for life, schedule a free consultation today to find out more about the TLC Lifetime Commitment.

People Who Rely on Their Vision Trust TLC

Hundreds of professionals have selected TLC Laser Eye Centers when they wanted to have their vision corrected. They chose TLC because of our highly experienced, extensively trained doctors – and because of our commitment to achieving the best possible results for our patients.

Elaine Larson, Jet Car Driver & TLC LASIK Patient

"At speeds over 300 mph and G-Forces that out accelerate the space shuttle, my visual acuity is critical. I researched several LASIK centers, but after my first visit to TLC, I knew I was in the right hands."

Are You a Candidate?

The best way for you to determine this is with an in-depth examination at a TLC. LASIK can treat a very broad range of nearsightedness, farsightedness and astigmatism in people who are at least 18 years old, in good general health with a stable prescription and have no eye diseases.

TLC AVAILABLE TECHNOLOGY

TLC is Focused on Your Safety.

Laser Eye Centers®
Technology. Lifetime. Commitment.

At TLC Laser Eye Centers, your TLC doctor will help you decide which procedure is best for your eyes, your prescription and your lifestyle.

Bladeless LASIK

A silent computer-guided laser is used during the first step of the LASIK procedure to create the corneal flap. In Bladeless LASIK, the laser accounts for the natural curvature of the cornea, creating a customized flap of uniform thickness.

- Surgeons can treat a wider variety of patients, including patients with thin corneas.
- Eliminates the hand-held microkeratome (blade), giving you an 'all laser' procedure.

CustomLASIK

Your cornea is like your fingerprint; no two are alike. With CustomLASIK, a customized map is created for each eye. This data allows for treatment of tiny imperfections in the eye that can have a significant impact on your quality of vision.

- Digitally identifies and measures imperfections 25 times more precisely than Conventional LASIK.
- Offers the potential for better vision than with contacts or glasses.
- Provides improved night vision and less incidence of glare and halos.
- Is suitable for those requiring higher levels of precision and treatment accuracy than Conventional LASIK can provide.
