-

RELEVANT EXPERIENCE

Guy Computer Project: Guy Computer
Role: Programmer

Guy Computer needed Isara to Programming. Isara took part in Web programmer ,Application database programmer and Technical support.

BSH Project: Bangkok Samui Hospital
Role: Information Technology Engineer

BSH needed Isara to IT Position. Isara took part in IT position such as Server Administrator ,Network Administrator ,Lotus Notes Administrator,Helpdesk ,Technical ,Problem Solve.

AIS Project: Advance Info Service Limited
Role: System Analysis

AIS needed G-Able Company Limited to analysis on Billing system. Isara took part in billing support.

TIG Project: Thai Industrial GAS
Role: Help Desk

TIG needed consulting and operation to Information Management form G-Able Company Limited. Isara took part in Help Desk such as repair computer and printer, user support, printer support, problem solve, client management by ideal administration

Tesco Lotus Project: Tesco Lotus
Role: NT/Windows System Administrator

Tesco needed consulting and operation to Information Management form G-Able Company Limited. Isara took part in NT/Windows System Administrator such as Implement ,Managing , Security, Plan, problem solve, System Maintenance

UBC Project: United Broadcast Coperation
Role: Intel/Windows System Administrator

UBC needed consulting and operation to Information Management from G-able Company Limited. Isara took part in Intel/Windows System Administrator such as Implement ,Managing ,Security ,Plan and Solution, Problem Solve, Troubleshooting, System Maintenance.

Migrate AD Project: Teco Lotus
Role: Intel/Windows System Administrator/Project Leader

Testco Lotus needed consulting and operation to Information Management from G-able Company Limited.
Isara took part in Project Leader Intel / NT / Windows System Administrator Migrate Active Directore (Domain Controller) from NT Active Directory Server to Windows 2003 new Active Directory Server in Tesco Lotus head office ,Implement ,Managing , Problem Solve, Troubleshooting, System Maintenance.

Windows Specialist Project: DTAC
Role: Intel/Windows System Administrator

DTAC needed consulting and operation to Information Management from G-able Company Limited. Isara took part in Intel / NT / Windows System Administrator Implement ,Managing , Problem Solve, Troubleshooting, System Maintenance and Routine jobs.

IT Manager : Information Solution & Operation System Co. ,Ltd. (ISOS)

Role : Windows / Unix / Linux / Network Data Communication / Security

System Engineer Specialist (Consultant from ISOS): Wannakit Accounting Co., Ltd.

Role: Windows/Network/Security System Administrator Consultant

Wannakit needed consulting specialist to information management , setup system and navigator from ISOS Company limited. Isara took in System Engineer specialist and administrator Design Infrastructure , Planning , implement , Administering , Managing , Problem Solve , Troubleshooting , System Maintenance , Network analysis and Security Audit.

IT Office & Programmer (Consultant from ISOS): Gioiellando Co., Ltd.(Jewelry)

Role: IT/Programming Consultant

Gioiellando needed consulting programmer to build jewelry program and IT support, setup system and navigator from ISOS Company limited. Isara took in IT/Programmer consultant and IT support, Planning , implement , Problem Solve , Troubleshooting ,Programming ,Website Programming.

Infrastructure Design : ACP Industrial Co., Ltd.

Role : Security Infrastructure

ACP need advance security in ACP Office and they site. I have design Security Infrastructure and System infrastructure for protect they employee steal data from server with Floppy , CD-Burn, FlashDrive include email send to outside. I have integrate windows with linux for best system security.

System Engineer Specialist (Consultant from ISOS): Apex International Clinical Research Co., Ltd.

Role: Windows/Network/Security System Administrator Consultant

Apex needed consulting specialist to information management , setup system and navigator from ISOS Company limited. Isara took in System Engineer specialist and administrator Design Infrastructure , Planning , implement , Administering , Managing , Problem Solve , Troubleshooting , System Maintenance ,Backup , Network analysis and Security Audit.

System Engineer Specialist (Consultant from ITSCS): Apex International Clinical Research Co., Ltd.

Role: Windows/Network/Security System Administrator Consultant

Apex needed consulting specialist to information management , setup system and navigator from ISOS Company limited. Isara took in System Engineer specialist and administrator Design Infrastructure , Planning , implement , Administering , Managing , Problem Solve , Troubleshooting , System Maintenance ,Backup , Network analysis and Security Audit.

System Engineer Specialist (Consultant from ITSCS): D1 Asia(TH) Co., Ltd.

Role: System Engineer specialist Consultant

D1 needed consulting specialist to information management , administering, Scripting and navigator from ITSCS Company limited. Isara took in Senior Unix administrator to do Administering Solaris and Oracle for Bank System , Planning , Scripting , Documentation, Managing , Problem Solve , Troubleshooting , System Maintenance ,Backup and Suggestion for SUN Security in first project and still contact on system engineer specialist position.

System Engineer Specialist (Consultant from ITSCS): TISCO Bank Co., Ltd.

Role: SUN Solaris 10 and Oracle 10G Database System Administrator Consultant

TISSCO Bank needed consulting Senior Unix administrator to information management , administering, Scripting and navigator from ITSCS Company limited.
