[Excellent For Beginners , Super Good For Everyone !!](#)

At last, for a generation that's materially ambitious yet financially clueless comes *I Will Teach You To Be Rich*, Ramit Sethi's 6-week personal finance program for 20-to-35-year-olds. A completely practical approach delivered with a nonjudgmental style that makes readers want to do what Sethi says, it is based around the four pillars of personal finance—banking, saving, budgeting, and investing—and the wealth-building ideas of personal entrepreneurship.

Sethi covers how to save time by not wasting it managing money; the guns and cars myth of credit cards; how to negotiate like an Indian—the conversation begins with no; why Budgeting Doesn't Have to Suck!; how to get things rolling—for real—with only \$20; what most people don't understand about taxes; how to get a CEO to take you out to lunch; how to

avoid the Super Mario Brothers trap by making your savings work harder than you do; the difference between cheap and frugal; the hidden relationship between money and food. Not to mention his first key lesson: Getting started is more important than being the smartest person in the room. Integrated with his website, where readers can use interactive charts, follow up on the latest information, and join the community, it is a hip blueprint to building wealth and financial security.

Every month, 175,000 unique visitors come to Ramit Sethi's website, [Iwillteachyoutoberich.com](http://Iwillteachyoutoberich.com), to discover the path to financial freedom. They praise him thoughtfully (Your site summarizes everything I want with my life—to be rich in finances, rich in experience, rich in family blessings, Dan Esparza) and effusively (Dude, you rock. I love this site! Richard Wu). The press has caught on, too: Ramit Sethi is a rising star in the world of personal finance writing . . . one singularly attuned to the sensibilities of his generation. His style is part frat boy and part silicon Valley geek, with a little bit of San Francisco hipster thrown in (San Francisco Chronicle). His writing is smart, his voice is full of attitude, and his ideas are uncommonly sound and refreshingly hype-free.

### **Personal Review: I Will Teach You To Be Rich by Ramit Sethi**

This book is completely un-intimidating and full of real world examples of the right things to say to a) set up your finances and b) automate it so that you don't need to worry about it very much at all afterwards. I've read more than a few books on personal finance, and this is almost the first to lay it out in a clear enough and easy enough format that I'm actually *\*acting\** on the to do lists.

And I love the scripts. I love the fact that Ramit has given me the magic words on how to talk to customer service people to get changes made. This alone gives me so much more confidence. I have the book in hand when I make phone calls to banks/CCs now even if the call I'm making isn't *\*exactly\** the same, just similar. In short - he's made the whole process of dealing with finances NOT SCARY, and I hate dealing with paperwork to the point of being phobic and panic-attacky about it at times. (Not even Suze Orman has managed to make finances this approachable for me. I learned a lot from her, but never actually DID anything about it.)

And so far, it works. I've saved \$10 on a bank fee (meaning the book has now paid for itself) and got one of my credit cards to drop its interest rate in half. 27% to 13.25% is nothing to sneeze at!

As an added bonus, the cover is such a bright neon color that you can use it instead of a nightlight, saving you a couple more dollars. ;)
