CarePoint

7000 AutoAlert Personal Help Button

7000AHB is a smart pendant-style button that automatically sends an alarm to CarePoint if a fall is detected.

UL2560 CERTIFIED

AutoAlert Personal Help Buttons can be assigned to residents, enabling them to signal for help from any location on campus that is covered by the CarePoint System. The AutoAlert Help Button is waterproof and can be worn in the bath or shower.

Features & Benefits
The 7000AHB Help Button can detect most falls, providing an added layer of protection
"Fall Detected" alarm allows staff to differentiate potential falls from other alerts
LED illuminates for call assurance to indicate the help call has been sent
Lightweight and waterproof pendant design encourages wearing compliance
Ability to be comfortably worn under clothing
Supervised device provides notification when device needs service or low battery condition
Adjustable lanyard with breakaway feature enhances user safety
UL2560 Certified
