Make An Intial $10 Very Fast

Step 1)Get one or more twitter accounts. Twitter requires no email activation, so get 1-10 accounts to start with.

Step 2) Join *http://twtad.com/?id=6339* This is a advertising network specially for

twitter. They pay by paypal, within 48 hours! You choose which ads you want to post on your twitter profile and you will get around $0,06 to $0,20 per click. It doesn't really matter as you will get a lot of clicks, so don't worry! After you joined twitterad, you can ad your twitter profiles. To post an ad, simply press ´post ad´ and select the profile

Step 3) Mass follow people. If you follow them they will follow you back and then you can 'promote your ad'.This can be done with the free website twollo. You can follow people that twitterd about certain items with twollo. To get an higher clickthrough rate, you should follow people that twitter about the same subject as the ppc ad. You can set it up in less then a minute and it will work for you till the limit has been reached. Now that's what I call time-effective

To autfollow you can also use hummingbird

You an also use tweetlater to autotweet and automessage followers with your ad. This will improve the amount of clicks significantly

If you use Hummingbird you can follow up to 1000 users in 1 day!!!

Step 4) Wait for people to follow, or rinse and repeat

If you have 5000 follower you'r guaranteed to make atleast 10$/day.
10 accounts x 10$=100$/day
